Attachments: Copy of Combined-EPA_R3_R6_R8_R9_R10_OOOOa_Affected_Facilities-8-11-18 (004).xlsx; R6 Combined Compliance Reports- Texas.pdf

Hi Chris,

Resending this anyway, in case there is a NM report that was caught in CEDRI that you didn't find.

Here is the FOIA folder

One other place you might find a report is the R6 Oil and Gas inbox (it is supposed to be for well completions, but R6 thinks they got some reports there). We never collected from there, but you could do an e-discovery for that. R6wellcompletion@epa.gov

The FOIA link is

Subject: NM Compliance Reports

I am attaching the 2017 OOOOa Compliance Reports - they are in a file named R6 Compliance Reports_TX, but NM is in there. I am also providing a link to the 2018 reports.

https://usepa.sharepoint.com/:f:/r/sites/OAR_Custom/NSPS_OOOOa_Reconsideration_Workgroup/Shared%20Documents/Compliance%20Reports/R6%20Reports?csf=1&e=EV0rJi

In each case, these are ONLY the reports which were received through CEDRI. There may be other NM reports which were received by R6 EPA via snail mail, or only received by NM, under their delegation.

I am also attaching the summary of the 2017 CEDRI reports (thanks to OAQPS for doing this work last year for the FOIA).

You need to go through a couple of steps to get the reports you want to see:

Open the Excel SS

Go to Sheet named R6_NM

That is a summary of the companies that reported, and which affected facilities they reported for.

Go to Column "U" - that will tell you which page(s) of the PDF "R6 Combined Compliance Reports_TX.pdf" to find the specific report for the company.

The 2018 reports have not been through the summary process and we currently we don't have plans to do so.

LMK if you have trouble with any of the files or links.
